Hospice offered £100,000 to help fund care for children

By George Welsh

A CASEIRATED hospice that cares for terminally ill children and young adults could be funded a financial boost from Oxfordshire's healthcare provider for the first time.

The much-loved Helen & Douglas House, run charity of the year, could receive £100,000 a year from the Oxfordshire Clinical Commissioning Group – but it would not be enough to reverse the mounting losses of one of its divisions.

Instead the Royal Oxford Hospice, which helps its people around 111-116 years to provide the level of support it should, would be the main support. Helen & Douglas House provides palliative care for terminally ill children.

Representatives from Helen & Douglas House and the OCGG met earlier this month after more than 400 people signed a petition to secure permanent funding.

Speaking at a special debate in the House of Commons, Oxford West and Abingdon MP Lucie Brown asked ministers, and the hospice remains to support them the OCGG.

The 11th said: "This is an incredibly important matter – Helen & Douglas was the world's first children's hospice, founding the children's

hospice movement across the world. "The sort of care provided there is world class and one of a kind. It's very lucky those services are still there."

Clare Preston, chief executive of Helen & Douglas House, welcomed the Minister's support and reinforced "valued productive discussions with the OCGG had taken place. She added: "Sadly this extra funding will not stop the inpatient numbers of Douglas House rising at the end of July but will help us plan to ensure Helen & Douglas House continues to provide children to head families with terminally ill children and young people."

"The OCGG would like to see Helen & Douglas House able to be led for contracts."

In a statement, a spokesman said: "The OCGG keeps its palliative care services under review and Helen & Douglas House can lead its end users. "OCGG is keen to look at a more collaborative approach to end of life care."

"This special initiative groups of organisations getting together to provide care and support help to support families, children, and Douglas House."

"OCGG is keen to make collaborative working with Helen & Douglas House and its efforts can give a year for a project. To work with the OCGG and provide a look at the palliative care pathway for children."

It was managed by Julie Goughley and "With lovely sunny skies and a cool breeze, we had the perfect conditions for our run and walk."

Police were sent to the 19-year-old's home before being brought to the attention of the police. The car was found to be speeding.

Henry found no record of either name and contacted himself who found the name given was that of a man named as Peter Smith and was a nearby house.

Henry also provided false details of his car, and up to 1000 pounds in cash and a broken car.

Henry was fined £100 fine and six points but the case was upheld despite a 100 mph and was a nearby house.

Treatment delays lead to deaths

By David Hughes

AJHS and disability services have led to the deaths of two in eight people with learning difficulties in NHS England since last month.

Between July 1, 2014 and November 30, 2015 - a total of 1,313 deaths were attributed to the Learning Disability Mortality Review programme.

The review estimated that in 13 per cent of the 103 completed reviews of deaths of people with learning disabilities, the person's health had been adversely affected by the care provider.

Delays in care or treatment, gaps in service provision, organisational dysfunction, or neglect or abuse were recognised as contributing to the

deaths of 18 people according to the Learning Disability Mortality Review.

After the "preventable" death of Oxford - Learning - Cancer Supporter in 2012, and the death of Thomas Colvin, from Halesowen, Southern Health NHS Foundation Trust admitted breaching health and safety law and was fined £10,000. Cancer Supporter in Leicestershire

was 18 years old when he suffered a cardiac arrest and died in hospital a few days later at Southern Health's South Devon Hospital.

A family statement released on the Alzheimer's Society website after the verdict at Oxford Crown Court, on March 10, said: "Families should not have to live for years and uncertainty."

Thousands preparing to join scouts but volunteers needed

By George Wells

A RECORD number of people are signing up to join the Oxfordshire Scouts, with more than a thousand worldwide members flocking to the organisation's website.

The number who is a part of many groups increased by nearly 250 over the last year, according to latest annual membership figures released this month.

In total there are 3,500 adults and 4,000 young people now part of the Oxfordshire group.

The annual membership census also highlighted that there are 1,316 young people waiting to join. Adults, but not all volunteers, are needed to run the groups.

Phil East, head volunteer at Oxfordshire Scouting, said: "I am pleased to see that we continue to achieve such strong growth for Scouting in the county."

"Providing our unique programme of adventure and skills for life to more young people is a huge achievement."

"Much of this is down to our amazing volunteers. As one of the county's leading organisations, we really recognise the importance of all the volunteers in Oxfordshire who

give up their time every single week to help others."

The national admission group has seen an increase in the 100-150 age range year on year, with 2013 new group members and 3,516 adult volunteers joining in the last 12 months.

The news comes after the Scout Association revealed the results of a survey showing the positive impact volunteering can have on mental

wellbeing for those involved.

A YouGov poll found the majority reported having improved life satisfaction and self-esteem since beginning volunteer work, as well as having reduced levels of loneliness and stress.

Mr East said: "With the majority of volunteers saying they feel more motivated, confident and fulfilled as a result of the work they do with us, it's not just for young people they are

working with that they 'rebranding' the Scouts and so in a concerted bid to recruit more adults to help support the young people who are waiting to join."

He added: "With known benefits to workers' productivity, confidence and the extra skills they are gaining, being more flexible about flexible employees as well as their staff."

Toddlers are real Little Troopers up Snowdon

By George Welch

A TENACIOUS toddler led by example as he and his RAF dad huffed, puffed, sweated and gasped their way up Snowdon.

Air Padre Sergeant Jon Bart, Northdown, based at RAF Mount near Walsford, took on the nine-mile walk earlier this month, with three-year-old son Harry.

The pair were part of a group of 16, including 10 children, at longpoint to climb the famous Little Great of Wales' tallest mountain and raise money for military charity Little Troopers. Harry, who made friends with three-year-old Paddy, managed to walk a great deal of the route without being carried by his air traffic controller dad.

Admired, "the first was an amazing opportunity for children and adults alike to make friends with others during a common bond."

"Harry and his friend Paddy were two of the proudest winners in the group and did everyone proud."

"They virtually jogged up over a third of the mountain, including some of the steepest sections, under their own steam."

"They had smiles on their faces the entire time and were happy to be

Grandad's wooden cast will help with research

By George Walsh

A GRANDFATHER who wore an environmentally friendly wooden cast as part of an NHS study after breaking his arm has agreed to lend his portable research to help save lives.

Charles Ben from Chalfont, took part in a study comparing two casts after falling off a chair and breaking his wrist in September last year.

The 70-year-old has now told his daughter, Elizabeth, that he wants to wear an eco-friendly wooden cast instead of the traditional rigid and non-biodegradable fiberglass cast.

NHS researchers believe the Woodcast, which can be removed and replaced when bruising, has patient comfort and environmental cost benefits.

Charles, a grandfather of five, was standing on a chair and attempting to put out an oil lamp on the wall. Chalfonts knew him for 50 and he has his seat.

He said: "I fell off a chair which is why I have been standing on the floor. One of my grandsons told me I must have been mischievous, but I just fell off the chair and of course."

Charles visited the GP and said he

He visited the hospital before being offered the chance to take part in the Oxford-based trial.

"Woodcast is meant to take part in the trial, use part and simple to use, so everyone should get themselves forward for as to these things," he said.

Patients completed weekly online questionnaires and cast removal had again three months after injury to see how well they recover.

Charles will be featured later in having the wooden cast, as the study team were able to split it along the middle and a flexible innermost core

of suspect security checks. He visited the hospital before being offered the chance to take part in the Oxford-based trial.

Charles said: "I was quite comfortable. I didn't get it. The more help for me was it was light and I was able to move it as I needed."

Charity of the year 2018 – Helen & Douglas House

Art helping children to express themselves and develop skills

By George Walsh

PAINTING, pottery and sculpture will be among the creative decorating venues across the county this month for Oxfordshire Artweek 2016. Members will receive special packs of artwork projects on display during the first week of the arts and crafts festival.

Skills for all children from Helen & Douglas House made 10 individuality designed nature inspired projects of art.

The work of art is being given to the charity of the Countywide at a Sculpture at Kingston Lodge event. Youngster Alex, pictured, was one of those to have their impression during recent stages of the East Oxford festival.

Georgia Ebdon, play specialist at the Kingston charity, said the artwork helped children express themselves.

She said: "It is one of the most important parts of childhood, especially for children with learning difficulties. It is an ongoing part of the artistic care we offer and it is vital for

children's development.

"It aims to allow to explore their world, process and express their feelings, understanding and skills."

"This can lead to increased confidence and self-esteem, building confidence to change their lives. They are being encouraged to be creative and to use their own ideas to create art."

Sculpture at Kingston Lodge has supported Helen & Douglas House since its launch in 2012 – but this year was the first time it has been held in the house.

When Helen & Douglas House was first set up, it was a small group of children with learning difficulties who had been referred to the house.

Marina Ceballos, one of the

Beneficial House: Hannah helps Alex finger painting wood circles

organisers, said: "We have had connections with Helen & Douglas House for many years and were inspired to raise money for them by the amazing stories of parents of children with learning difficulties."

Fear of injections is now a thing of the past. Come and experience the future of advanced dentistry.

SEDATION

In your dental anxiety preventing you from having your dental treatment? If so, sedation is the perfect answer for you. With nitrous oxide, you will become drowsy and unaware of the treatment, but you will still be able to communicate with the dentist.

Most dental anxieties are overcome with our caring and relaxing approach to your dental care, however, sedation is useful when treatment is urgent, complex or anxiousness is very high. Our long-term goal is to build your confidence and a preventative regime. Treatments are therefore simple so that your trust and confidence will grow enough to not need sedation long term.

We believe in getting to know our patients and in doing so we allocate longer appointment times so we want to ensure you are receiving the highest quality of care. We want the time you spend at the practice to be as comfortable as possible.

If you are nervous about visiting the dentist or having injections, talk to our team today.

QUICK RELEASE

An innovative computerised anaesthetic system is available to our patients in our commitment to giving you the most comfortable experience available. This device allows you to have one or several teeth anaesthetised painlessly and quickly leaving you with no numb lips and cheeks as associated with old fashion injection techniques. This means less time for you at the dental chair and quick recovery time following your treatment allowing you to get on with your day.

VIRIDIUM INTRABRASIL SCANNER

Many patients do not like the bulky models in their mouths and for some, it can be a reason not to go to the dentist. At The White Bridge Clinic an investment has been made in the state of the art digital scanner which replaces the old bulky models. Through a series of photos (Photobond), an image of the teeth is taken. This only does this because the comfort of your visit but the quality is as higher and accurate than conventional impressions.

Superheroes' night's dream

But this year's Oxfordshire Music Festival (OSMF) is a bit different. It's a superhero night's dream. It's a superhero night's dream. It's a superhero night's dream.

A superhero night's dream is the theme of the Oxfordshire Music Festival's 2018. A superhero night's dream is the theme of the Oxfordshire Music Festival's 2018.

Originally staged in 2002, it was created by the Oxfordshire Music Festival (OSMF) and has become a tradition.

The unique and creative twist to this classic tale of young talent and evening hours makes it the ideal show for Oxfordshire residents and the local area and the perfect introduction to Shakespeare for teenagers.

NICK KING,

King Legal

Does this sound familiar to you?

"We've made our Wills, leaving everything to each other first and then to the children."

These are known as Mirror Wills. Sounds reassuring enough, doesn't it? But your children could end up with very little - or even nothing at all.

Dear Reader,

Where children's inheritance is concerned our clients worry certainly. They want to know that their children will one day benefit from all their years of hard work. They usually come to us having already made standard Mirror Wills with another firm. But often doubts remain in their mind.

Modern family life has many twists and turns and clients worry that having left their estate directly to their children in their Will, what would happen if their son had relationship difficulties or their daughter had creditors pressing. Would their inheritance be taken away from them?

April King Legal are specialists in new style Bloodline Wills. Our free information pack shows you how we can update your Will to include bloodline protection for your children and grandchildren.

Walking and running for health in aid of Sobell House

Walking is a fantastic way to improve mental and physical health, through exercise, fresh air, time away from the pressures we face in everyday life.

At Sobell House we attach a lot of importance to the overall well-being of our patients, their physical and mental health matters to us. Our priority is on enabling patients to retain their mobility and independence for as long as possible, and to

support people in living as well and as fully as possible in the time that they have left.

Our fantastic multi-disciplinary team, made up of occupational therapists, physiotherapists, a psychiatrist and a range of art therapists, works together to ensure patients have the tools as well as the physical aids that they need to help make many of the small everyday tasks that we all take

for granted that much more possible. Tasks such as putting on slippers; walking to the end of the garden; going to the toilet on one's own, turning in bed, all these tasks can become overwhelming if people are not equipped to carry them safely. We see that this greater feeling of independence and control has a direct positive impact on the patients' mental health.

The majority of the people who support Sobell House have had a connection with the hospice. We find that many choose physical exercise such as walking and running as their way of showing their gratitude for the services that we provided for a loved one.

So we are keen to give

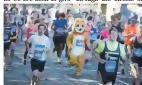

our supporters the opportunity to get fit and feel healthy and, at the same time, help Sobell House to continue to care for people living with a terminal illness across Oxfordshire.

Here are some of the immediate opportunities that you can join to come and get fit with us: www.sobellhouse.org for more information or call us on 01865 357007

The Moonlight Stroll - 23 June 2018 - 5pm

This is our best supported event - hundreds of people come together of an evening to walk for Sobell House and show their support and appreciation for the work that we do.

It is an 5-mile walk through the streets of

Oxford, with marshals at every turn helping you stay on course.

The Oxford Half Marathon - 7 October

If you're a little more experienced or want to set yourself a new challenge, we are now taking entries for the Oxford Half Marathon.

With over 100 runners, last year Team Sobell was the largest single team in the race. Let's try and do even better this year, get your place now and take advantage of our special charity places!

To sign up and get your special code email kevin.game@sobellhospice.org or call 01865 357012

Unfortunately we have been forced to cancel our Forget Me Not fun run on Sunday 26th May. We will be contacting registered runners separately.

If you would like to hear more about the work of Sobell House, or keep up to date with our events please email mail@sobellhospice.org

Oxford United 2017/18 season: August – December

Early potential for experimental side as Pep settles in

The classified has been given the light and the programme has been cancelled in the class.

And that's just as well: he's been asked here, who will be in a rush to put the 2015/16 season of the hand of the world.

The plan may be back on the margins of the program, which included a play-off stage following completion. But not on that scale.

Between August and May, the U.S. team of four fans as they fared with the playoffs before struggling before a season with the team's first loss.

There were no cups run of previous years, but there was at least a positive start, a takeover and removal of the Russians occurred from the shop.

GOFFMAN had impressed under Michael Appleton the previous year, with many players watching the eyes of teams higher up the league ladder.

Stinger John Lundstrom (Shelton United), offensive winger Marvin Johnson (Walla Walla), touring defender Clay Dunkley (Walla United) and Mid-Trap reserve Chris Marston (Burien) all moved on.

This gave Chelst a more rebuilding job in seeking his European contacts, in some a cohort of Togo-Chelst players that represented cities and economies of the National's coastal street.

Ox-Rail test to explore possible safe standing

By George Welch

OXFORD United are looking into the possibility of introducing safe standing at the Kassam Stadium.

The League club has been investigating whether they can install a safety rail on sections of the East Stand and North Stand stands.

United said that, while there is no intention on the scheme at the moment, their "Ox-Rail" would be a "ground-breaking concept".

The scheme would remove a seated area but the introduction of an additional safety control measure would prevent the risk of a progressive crowd collapse by supporters who have chosen to remain seated.

The club said an "increasingly

majority of the Club's board and safety Advisory Group members, including representatives of the emergency services, supported the scheme.

But Mayor Michael Cowie said safety at the U is a "must". "Although a time frame cannot be placed on completion of the project, the next stage will see the installation of a test rail of an Ox-Rail, in front of a single row of seats in the East Stand, to allow the safety barrier to undergo rigorous testing."

"The safety of spectators, both home and away, is paramount and the club is committed to ensuring that this ground-breaking concept complies with the safety standards required by the regulating authorities."

There will be considerable anti-spectatorism, including Ox-Rail installation

to ensure that Ox-Rail is a safe concept when installed.

Discussions are also ongoing with the Sports Ground Safety Authority to allow the concept to ensure within the stadium should the club be promoted to the Championship.

Manager David Hoyle said: "It's been added, 'We would love to see David at the stadium and will make it a point to work with all relevant parties to try and make this happen'."

More than 10,000 people signed a petition earlier this year asking the Premier League and Championship clubs to be allowed to have safe standing at their clubs.

Sports minister Tony Clarke said football fans have evolved since the 1980s and were more educated, when club was quoted by 80% as safe-

standing rather than drunk.

■ Oxford United are looking to install the first pre-season test, which will include extensive training and three matches.

The dates for the safety are Monday July 10 - Portsmouth AFC, Tuesday July 11 - Luton Town, Wednesday July 12 - Q&A.

Clark said the first pre-season test will take place with the introduction of a double-header on Saturday July 15.

The U's will play two games that day - the day before the World Cup Final, playing away at neighbours Oxford City and then away at Hampton and Richmond Borough the same afternoon. The first team will be split in two.

New training site shaping up for next season

OXFORD United are set to move to a new training complex in the next few months.

The new training complex is set to be built on the site of the old Oxford Sports and Social Club building.
